Profile Summary

Highly motivated Associate React Developer with a passion for crafting efficient and user-friendly web applications. Proficient in React.js and its core principles, with hands-on experience in building responsive web interfaces

Education

B.Tech/B.E., 2014

Sri Krishna Engineering College, Chennai

12th, 2010

Tamil Nadu, Tamil

Work Experience

Apr 2023 - Present

Software Development Engineer

Scootsy Logistics Private Limited

I am primarily responsible for frontend development using React.js, where I design and implement user interfaces for web applications. I work closely with UI/UX designers and backend developers to translate design mock-ups and wireframes into functional and visually appealing interfaces.I develop reusable UI components and ensure consistency and maintainability across the application. I write clean, efficient, and well-documented code following best practices and coding standards.

Sep 2017 - Apr 2023

Senior QA Engineer

Lynk Logistics Limited

Develop and maintain automated test scripts using Selenium WebDriver and Java. Collaborate with QA and development teams to ensure test coverage and quality. Execute automated tests to validate web application functionality and performance. Continuously improve test automation frameworks and processes for efficiency.
